Life is colorful, see it accurately!

Every monitor displays color differently. Our process allows your CRT monitor to display color accurately. 

When you visit a Verifi™ enabled web site, you'll see images color-corrected just for you. So go ahead, shop in confidence.

To start, maximize your browser window.

Register to win a New Beetle® from Volkswagen®!

cancel  **begin**

Adjust Your Monitor

step 1 of 4

- Increase monitor contrast control to MAXIMUM 

- Increase monitor brightness control to MAXIMUM.

- Decrease monitor brightness control until the darkest bar just disappears.
- Click on the darkest bar currently visible.
- Click "Next".
